

TOWER LIFTER SERIES

TL34 Custom Lift

Lifts can be designed in accordance to specific customer requirements. Any type of boom design, drive design and power source is available. An example of that is the TL34.

The Tower Lift is designed specifically for doing masonry repair in a steel mill exhaust tower. Prior to purchasing the TL34, the mason was suspended in a basket at 100 feet from a crane and lowered down from the top of the exhaust tower.
